

Talk to Me!

Friday 15th May 2026

Phonics

This week in phonics we have been reviewing everything we have learnt so far and assessing what the children know. You will find an updated sticker in your child's reading record book today which shows you which sounds and harder to read and spell words that they need to practise daily.

Maths

In Maths we have been looking at numbers and having an understanding about their magnitude. We have compared numbers; which is more or less and we have put numbers in the correct order. As well as this we have been thinking about where numbers are in relation to each other.

Can you play dice games; snakes and ladders etc? Look at how the numbers get bigger as you progress through the game. Can you jump along a hopscotch at the park?

Dojo challenge!

Can you draw a picture of something you do over the half term break and write a few sentences to go with it?

Flash Cards idea

Make a pile of the flash cards you need to focus on based on the latest assessment we have done. Look back at some of the game ideas on previous 'Talk to me' newsletters to use the targeted flash cards with.

Drawing Club Vocabulary

This week we read 'Moustronaut Goes to Mars' by Mark Kelly, a retired Astonaut . The vocabulary we used this week was:

What do these words mean? Can you show me the action you learnt for the word _____? Encourage your child to use these words at home.

Coming up next week....

Next week in phonics we will continue to practice everything we have learnt. In maths we will be learning about shapes and measure. In Drawing Club we will be watching a clip from 'Dodo, the Kid from Outer Space.'

Have a great weekend.

Mrs Turner
